## A little bit about the courses...

**Writing:** Learn about the creative elements of writing. Students will write a poem and story of their own to take home.

**Science:** Engage in hands-on experiments as well as create and build their own science project to take home.

**Reading:** Explore a new world through reading! Students will read a novel, and along the way will learn techniques to increase comprehension and fluency.

**Art:** Complete multiple art projects of different mediums to showcase then take home.

**Dance:** Explore Ballet, Jazz, and HipHop dance & strut your stuff in a fun performance at the end of the session.

**Brain Games:** Increase learning abilities and have fun through cognitive exercises that challenge areas such as auditory processing, visual processing, spatial reasoning, and logic.
